

***It's frustrating to plant a 'hardy' plant and find it simply does not thrive in your soil type.
Here are three lists for three Perth soil types from three plant experts.***

Andrea's top drought hardy plants for clay:

- One-sided bottlebrush (*Calothamnus quadrifidus*)
- Spotted emu bush (*Eremophila maculata*)
- Knotted club rush (*Isolepis nodosa*)
- Swan River pea (*Brachysema celsianum*)
- *Grevillea endlicheriana*
- *Grevillea 'Frosty Pink'*
- White myrtle (*Hypocalymma angustifolium*)
- Pink honey myrtle (*Melaleuca fulgens*)
- Native daisy (*Olearia axillaris*)
- Native rosemary (*Westringia fruticosa*)

Grevillea 'Frosty Pink'

*Bacon and Eggs
(Eutaxia obovata)*

Kathy's favourite plants for Perth sandy soils:

- Knotted club rush (*Isolepis nodosa*)
- Acacia lasiocarpa
- Albany kangaroo paws (*Anigozanthos flavidus*)
- Geraldton wax (*Chamelaucium uncinatum*)
- Hemiandra pungens
- Prostrate banksia (*Banksia petiolaris*)
- Emu bush (*Eremophila glabra*)
- *Grevillea olivacea*
- *Maireana oppositifolia*
- Dwarf western tea myrtle (*Melaleuca nesophila Dwarf*)

Jackie's best performers in foothills gravel:

- Flame pea (*Chorizema cordatum*)
- *Leptospermum 'Pink Cascade'*
- *Kunzea baxteri*
- *Grevillea thelemanniana*
- Native bluebells (*Sollya heterophylla*)
- Native fuchsia (*Correa alba*)
- *Thryptomene saxicola*
- *Baeckea virgata*
- Lemon scented darwinia (*Darwinia citriodora*)
- *Grevillea 'Robyn Gordon'*

Leptospermum 'Pink Cascade'
