

Coastal Planting

Choose from the following list of hardy plants suitable for planting in coastal sands.

'S' indicates salt tolerance

'L' indicates plants which will grow in limestone or alkaline soils - note that not all coastal soils are alkaline.

Ground Covers

- Banksia petiolaris L
- Conostylis candicans S L
- Grevillea crithmifolia prostrate L
- Hemiandra pungens S L
- Kennedia prostrata (running postman) S L
- Myoporum parvifolium S L
- Rhagodia spinescens S L
- Scaevola aemula (purple fanfare) L

Small Plants (to 1m)

- Acacia lasiocarpa S L
- Astartea fascicularis S
- Brachysema celcianum S L
- Chorzema cordatum (flame pea) S L
- Correa alba (white native fuchsia) L
- Darwinia oldfieldii L
- Eutaxia obovata (eggs and bacon) L
- Grevillea thelemanniana L
- Isopogon dubius (coneflower) S L
- Leucophyta brownii (cushion bush) S L
- Olearia axillaris S
- Pimelea ferruginea S L
- Templetonia retusa (cocky's tongue) S L
- Thryptomene saxicola S L
- Westringia fruticosa (Native Rosemary) SL

Medium Shrubs (1-3m)

- Acacia saligna (coastal wattle) S L
- Banksia media
- Banksia praemorsa
- Calothamnus quadrifidus S L
- Chamelaucium uncinatum S L
- Grevillea olivacea L
- Hakea laurina (pin cushion hakea) L
- Kunzea ambigua (fairy star kunzea) S L
- Kunzea baxteri S L
- Melaleuca armillaris S L
- Melaleuca nesophila S L
- Westringia 'Wynyabbie Gem'

Trees

- Agonis flexuosa (willow myrtle) S L
- Callistemon viminalis S L
- Casuarina equisetifolia S L
- Eucalyptus gomphocephala (tuart) L
- Eucalyptus lehmannii S L
- Eucalyptus macrandra S L
- Melaleuca lanceolata
- Melaleuca quinquenervia (cadjeput) S L

Climbers

- Hardenbergia comptoniana S L
(native wisteria)
- Hibbertia scandens (snake vine) L
- Kennedia nigricans (black coral pea) S L
- Kennedia becxiana S L
